PROJECTS

anyava, CRM Web App

June 2025 - PRESENT

Developed a lead management CRM with dashboards, filters, and reporting features, enabling sales agents to track, update, and organize leads by status, priority, and assigned agent. Included modules for lead creation, agent management, comment tracking, and performance visualization via charts.

myShoppingSite, eCommerce App

May 2025

Built a full-stack eCommerce web app using MERN stack with category-based product browsing, filters (price, rating), cart, wishlist, localStorage, and checkout features, managed via API and React Context.

SKILLS

React, Bootstrap, Node.js, MongoDB, Express.js, CSS, HTML, JavaScript.
